

# SWANTHANA, BANGALORE

## OUR WORK

Wipro Cares is supporting Swanthana in providing quality care for approximately 50 abandoned girls with severe disabilities at their care home off Sarjapur Road, Bangalore.

## IMPACT

- Physiotherapy, special education and nutrition for all the girls as per their individual needs

## DETAILS

The Swanthana Centre for Mentally Challenged Female Children was established in 2006. This orphanage provides shelter, nutrition and personalized loving care, along with appropriate medication and therapy, to approximately 50 abandoned girls with severe physical and mental disabilities.

Most of these girls were found abandoned as babies in public places. They are sent here by the Department of Women and Child Welfare and can stay till they turn 18. They receive physical and emotional care in this safe and loving environment.

Our support enables the children to receive regular physiotherapy, special education and quality nutrition as per their individual needs.
